Cashwork One®

New generation high-performance coin sorting system

procoin
cash handling for professionals

Cashwork One® is a latest generation coin counting and sorting system, which works at full speed. It was developed **specifically for use at ticket offices and main cash desks**: Due to the particularly quiet coin transport it produces minimal noise. **The DS version meets any additional requirements from the cash centre environment.**

The newly developed Coinsure® Matrix Sensor ensures reliable screening of foreign money, is currently Bundesbank-tested and detects all known counterfeit coins.

Detection

Sensor	Coinsure matrix verification
Coin sorting	of all 8 Euro coins (DS 8+1 with control count)
Counting modes	Mix/bagging

Capacity and Speed

Coin hopper capacity	5.000 coins
Counting and sorting speed	adjustable up to 3,000 coins per minute (DS 3500)

Technical data

Dimensions (W x D x H)	1095 x 368 x 310 mm
Weight	59,0 kg
Power consumption	290 W
Power supply	230V / 50 Hz

Interfaces

2 x USB port	Updates via USB stick
RS232 PC interface	Serial port
SD card slot	Updates via SD card
LAN RJ45	(optional)
Barcode scanner	(optional)

- The latest electronics make the system future-proof.
- Updates can be performed easily via removable storage media.
- Counting or statistical data is easily transferred over the network (via optional network interface) to a downstream computer system.

The operation can be controlled centrally via **programmable function keys** on the monitor screen and on the touchscreen.
